MEMORANDUM BY THE JAPANESE DELEGATION

CONCERNING

EXPORT OF ROLLER BEARINGS TO POLAND

~~691~~
691
5 General

1. The Japanese authorities have received an application to licence the export to Poland of ^{spherical} ~~special~~ roller bearings covered by Item 1601 (b) and valued at \$ 7,040.

2. The transaction involves 16 roller bearings (inner diameter, 480 mm.; outer diameter, 700 mm.), which are to be fitted into paper mills. The Polish Government has provided assurances that this material will not be transshipped or reexported.

In view of the limited quantity of bearings involved and the purely civilian end-use thereof, the Japanese authorities are convinced that the proposed export is harmless and necessary in terms of Poland's civilian needs.

3. The Japanese Delegation submits this proposal under the special exception policy for Poland, and would be grateful if the views of Member Governments would be given as soon as practicable.
